

ACCESSIBILITY GUIDE

NMLS is committed to making our sites accessible to all users, including those with disabilities in accordance with Section 508 of the Rehabilitation Act of 1973, as amended. NMLS makes an effort to publish only material that is fully accessible. Should you encounter material that you cannot use or access due to a disability, please contact the NMLS Call Center for assistance.

Plug-Ins to free applications

NMLS publishes the documents and files in several proprietary formats. In order to open and use many of these files it may require special software be installed on your computer known commonly as “plug-ins”. Section 508 requires that when special software is required to access these documents and files, NMLS shall provide a link that allows a user to obtain the required plug-ins.
